WORK EXPERIENCE

Mean Stack Developer

2021 - 2022

JiBe LLC I International, Remote

As a Jibe senior software developer, I worked with a team and built a CRM for the company's internal operations management. Our task management and version controlling system were on Microsoft Azure DevOps. The technologies that we used were

- Angular2+
- Nest Js
- Mongo DB
- Ejs2 Syncfusion
- Node.js

Mean Stack Developer

2018 - 2021

Media Cowboys pvt ltd I Lahore, Pakistan

At Media Cowboys as a mid-level software developer, my role was.

- Single Page Application.
- Jwt Authentication.
- Building interactive data handling systems and RESTfully Post/Get/Delete/Put to the UI through a Node.js backend
- Secure and Optimized Backend in MVC Design.
- Address and improve any technical issues
- As a Team Leader, collaborate well with Team Members, researchers, and data implementation specialists to design and create advanced, elegant, and efficient systems.
- Converting Real World Abstraction into Computer Code and Bring Solutions.
- Always willing to solve, as I encounter any problem, because I always believe in pushing my limits.

Applications we built as a team at Media Cowboys

- Multiple Portfolio Websites.
- E-Commerce Websites.
- CRM.
- Retail Management Software
- Investment Web Application
- A Voting App in Angular2+
- A complete LMS Application Built on Mean Stack
- Used GitHub as version controlling system and Digital ocean for hosting
- Used Payment gateways PayPal, Stripe, Coinbase
- Used and integrated third parties modules for example USPS API's, Twilio API's ...

Junior Web Developer

2017 - 2018

ScriptOne pvt ltd I Lahore, Pakistan

At ScriptOne I started work as a junior developer I mostly built web 1.0 applications and the technology I used were

HTML5, CSS3, Bootstrap4.6, Javascript, core Php and mySQL
